

## PATIENT MATCHING LITERATURE REVIEW REFERENCES

---

To build on the work completed to date in the industry, the Audacious Inquiry team performed a literature review that will be included in the final report. The following references were reviewed during the development of the literature review. They are listed chronologically in each category.

### Government Reports

Functional Requirements Needed for the Initial Definition of a Nationwide Health Information Network. National Committee on Vital and Health Statistics. October 30, 2006.

Privacy and Security Solutions for Interoperable Health Information Exchange; Perspectives on patient matching: approaches, findings, and challenges. Prepared for ONC by RTI. June 30, 2009.

Report to the President: Realizing the Full Potential of Health Information Technology to Improve Healthcare for Americans: The Path Forward. President's Council of Advisors on Science and Technology. December 2010.

National Strategy for Trusted Identities in Cyberspace: Enhancing Online Choice, Efficiency, Security, and Privacy. The White House. April 2011.

### ONC Advisory Committees

Summary of 12/9 Hearing on patient matching (slides), December 13, 2010, and transcript of Dec. 9 hearing. HIT Policy Committee Privacy & Security Tiger Team.

Letter to ONC. Health IT Policy Committee. April 18, 2011.

Letter to ONC. Health IT Standards Committee. August 17, 2011.

Meeting summary. Health IT Standards Committee. September 28, 2011.

Summary of recommendations on provider and patient identity management. HIT Policy Committee Privacy & Security Tiger Team. May 21, 2013.

Registries and Patient Identity Management. Draft white paper for third edition of Registries for Evaluating Patient Outcomes: a User's Guide. AHRQ Effective Health Care. October 31, 2011.

Development of a Scalable and Extensive Enterprise Master Index for the NHIN. Odysseas Pentakalos. SYSNET International for U.S. Army Medical Research and Materiel Command. September 2012.

Patient Matching Recommendations for ONC, v. 1.0. HHS Office of the Chief Privacy Officer, Health Information Technology Security and Cybersecurity Program. December 19, 2012.

Patient privacy, consent, and identity management in health information exchange, issues for the military health system. Susan Hosek and Susan Straus. RAND. 2013.

Health Information Technology Patient Safety Action & Surveillance Plan. ONC. July 2, 2013.
